

Volume 8 Number 4

Published on 15 August 2016

## Contents

- |   |     |   |
|---|-----|---|
| <b>Qihu Qian, Peng Lin</b>  | 423 | Safety risk management of underground engineering in China: Progress, challenges and strategies               |
| <b>Xia-Ting Feng, Chuanqing Zhang, Shili Qiu, Hui Zhou, Quan Jiang, Shaojun Li</b>          | 443 | Dynamic design method for deep hard rock tunnels and its application  |
| <b>Yifeng Chen, Jiamin Hong, Shaolong Tang, Chuangbing Zhou</b>                             | 462 | Characterization of transient groundwater flow through a high arch dam foundation during reservoir impounding |
| <b>Nabassé J.F. Koupouli, Tikou Belem, Patrice Rivard, Hervé Effenguet</b>                  | 472 | Direct shear tests on cemented paste backfill–rock wall and cemented paste backfill–backfill interfaces       |
| <b>Mehdi Panji, Hamid Koohsari, Mohammad Adampira, Hamid Alielahi, Jafar Asgari Marnani</b> | 480 | Stability analysis of shallow tunnels subjected to eccentric loads by a boundary element method               |
| <b>Suman Panthee, P.K. Singh, Ashutosh Kainthola, T.N. Singh</b>                            | 489 | Control of rock joint parameters on deformation of tunnel opening   |
| <b>Chunsheng Zhang, Ning Liu, Weijiang Chu</b>  | 499 | Key technologies and risk management of deep tunnel construction at Jinping II hydropower station             |
| <b>An-Bin Huang, Chien-Chih Wang, Jui-Ting Lee, Yen-Te Ho</b>                               | 513 | Applications of FBG-based sensors to ground stability monitoring  |
| <b>Raof Gholami, Bernt Aadnoy, Vamegh Rasouli, Nikoo Fakhari</b>                            | 521 | An analytical model to predict the volume of sand during drilling and production                              |
| <b>Rennie B. Kaunda, Brian Asbury</b>   | 533 | Prediction of rock brittleness using nondestructive methods for hard rock tunneling                           |
| <b>M.K. Gueddouda, I. Goual, B. Benabed, S. Taibi, N. Aboubekr</b>                          | 541 | Hydraulic properties of dune sand–bentonite mixtures of insulation barriers for hazardous waste facilities    |
| <b>Junfei Zhang, Fuxing Jiang, Sitao Zhu, Lei Zhang</b>                                     | 551 | Width design for gobs and isolated coal pillars based on overall burst-instability prevention in coal mines   |
| <b>Liang Yuan</b>   | 559 | Control of coal and gas outbursts in Huainan mines in China: A review   |
| <b>Abideen Adekunle Ganiyu, Ahmad Safuan A. Rashid, Mohd Hanim Osman</b>                    | 568 | Utilisation of transparent synthetic soil surrogates in geotechnical physical models: A review                |
